CARMICHAEL PRINTING CAN DO IT ALL – AT A FAIR PRICE

We've found the perfect solution for your personal and business printing needs – Carmichael Printing Company.

Owner Tony Gallegos offers an impressive range of services, from simple jobs to large, complicated printing and mailing project. Just tell Tony what you need, and he'll help figure out the most cost-effective way to get it done.

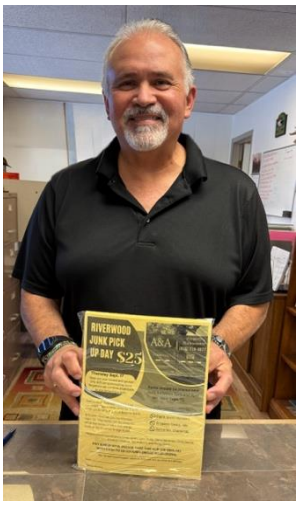

His services include:

- Printing and copying – from small jobs to large-volume projects
- Graphic design and prepress
- Invitations, flyers, brochures and program booklets
- Signs, posters and table tents
- Business cards, letterhead, envelopes and custom forms
- Major mail merges and mail tracking
- Lamination
- A large variety of binding services

Tony is a dependable source from concept to completed project.

What makes Tony particularly impressive is the scope of services he provides and the quality of his work. And then there's the price. His charges are consistently reasonable and, in our experience, considerably less than the cost of comparable printing and copying at OfficeMax, Staples or FedEx – **where YOU do the work! Bottom line – Tony saves you TIME!**

When this reporter retired from work, she had reams of logoed stationery that were taking up closet space. She met Tony and asked what could be done with all the paper – VOILA, he cut off the logo and resized the paper into multiple usable pads of 50 to 100 sheets each – which were customized with some fun rubber stamps!

Owner, Tony Gallegos
